PRIVACY PRACTICES-HIPPA**

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU
MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO
THAT INFORMATION.**

PLEASE REVIEW THIS NOTICE CAREFULLY.

This practice is committed to maintaining the privacy of your Protected Health Information (PHI), which includes information about your health condition and the care and treatment you receive from the Practice. The creation of a record detailing the care and services you receive helps this office to provide you with quality health care. This Notice details how your PHI may be used and disclosed to third parties. This Notice also details your rights regarding your PHI.

CONSENT

The practice may use and/or disclose your PHI provided that it first obtains a valid Consent signed by you. The Consent will allow the Practice to use and/or disclose your PHI for the purposes of:

- (a) **Treatment** – In order to provide you with the health care you require, the Practice will provide your PHI to those health care professionals, whether on the Practice's staff or not, directly involved in your care so that they may understand your health condition and needs. For example, a physician treating you for kidney problems may need to know the results of your latest physical examination by this office.
- (b) **Payment** – In order to get paid for services provided to you, the Practice will provide your PHI, directly or through a billing service, to appropriate third party payers, pursuant to their billing and payment requirements. For example, the Practice may need to tell your insurance plan about treatment you are going to receive so that it can determine whether or not it will cover the treatment expense.
- (c) **Health Care Operations** – In order for the Practice to operate in accordance with applicable law and insurance requirements and in order for the Practice to continue to provide quality and efficient care, it may be necessary for the Practice to compile, use and/or disclose your PHI. For example, the Practice may use your PHI in order to evaluate the performance of the Practice's personnel in providing care to you.

NO CONSENT REQUIRED

The practice may use and/or disclose your PHI, without a written Consent from you, in the following instances:

- (a) **De-identified Information** – Information that does not identify you and, even without your name, cannot be used to identify you.
- (b) **Business Associate** – To a business associate if the Practice obtains satisfactory written assurance, in accordance with applicable law, that the business associate will appropriately safeguard your PHI. A business associate is an entity that assists the Practice in undertaking some essential function, such as a billing company that assists the office in submitting claims for payment to insurance companies or other payers.
- (c) **Personal Representative** – To a person who, under applicable law, has the authority to represent you in making decisions related to your health care.
- (d) **Emergency Situations** – For the purpose of obtaining or rendering emergency treatment to you provided that the Practice attempts to obtain your Consent as soon as possible; or to a public or private entity authorized by law or by its charter to assist in disaster relief efforts, for the purpose of coordinating your care with such entities in an emergency situation.
- (e) **Communication Barriers** – If, due to substantial communication barriers or inability to communicate, the Practice has been unable to obtain your Consent and the Practice determines, in the exercise of its professional judgment, that your Consent to receive treatment is clearly inferred from the circumstances.
- (f) **Public Health Activities** – Such activities include, for example, information collected by a public health authority, as authorized by law, to prevent or control disease.
- (g) **Abuse, Neglect or Domestic Violence** – To a government authority if the Practice is required by law to make such disclosure. If the Practice is authorized by law to make such a disclosure, it will do so if it believes that the disclosure is necessary to prevent serious harm.
